

SOUTHBEARS 40 METER SUNDAY NET

"Script"

CQ Southbears, CQ Southbears, Calling members of The Southern Baptist Emergency Amateur Radio Service.

This net gathers most Sunday afternoons beginning at 1600 hrs EDT/EST, 1500 hrs CDT/CST, 1400 hrs MDT/MST, 1300 hrs PDT/PST, on or near 7.260 MHz plus or minus QRM. When band conditions prevent this net from establishing on 7.260MHz, then net control may choose to search for an alternate frequency near 7.260 MHz.

As a courtesy to Net Control and our Logger for the day, when you check into the net please give your call signs SLOWLY and PHONETICALLY (standard international phonetics please) so that the logger can get you logged in correctly.

The purpose of SouthBEARS is to fellowship with those involved in the Southern Baptist Disaster Relief Communications Ministries. During a declared disaster, the SouthBEARS HF will be activated to handle traffic from Disaster Relief Units en-route or already on location at the declared disaster.

Your Net Control today is __ (call-sign in phonetics) __.
My name is _____ and I'm located in the city of _____

Listening now for mobile stations, repeating, listening for mobile check-ins only.....
please call now. (break)

Do we have any relays for mobile contacts? Please call now. (break)

Listening now for check-ins from any call-sign area and state. (break)

Listen for stations and recognize them as you hear them...

At this time your net control station for today would like to thank all check-ins for their participation in this net. Thanks to all relay help, especially _____.

This is (call-sign of NCS) closing this session of the South Bears Emergency Amateur Radio Service Net and returning 7.260 MHz. {or alternate frequency} back to normal amateur radio use.

May everyone receive a Blessed Week, this is (call sign of NCS) out
